

# ADOPT-A-HIGHWAY

## Signs & Recognition Panels

Adopt-A-Highway signs are installed at the beginning of each Adopt-A-Highway section. Currently, two different sized signs are being used statewide. The larger signs, 54" x 42" (recognition panel 45" x 21"), are installed only on freeways. The smaller signs, 36" x 28" (recognition panel 30" x 15"), are used on all conventional highways.

Recognition panels will be provided and prepared by Caltrans without any cost to the adoptee. These panels consist of black block lettering on a reflective white background. If you provide a logo, it will be placed on the panel for you. The logo you provide must have an affixable surface (decal or stick-on) and be of an appropriate size for the panel. **NOTE: The minimum height requirement for the lettering is three inches on the larger panels, and two inches on the smaller panels.**

If you have any questions, please contact the Adopt-A-Highway Coordinator for your area:

SAEDRA WEDERBROOK, Caltrans District 2  
Adopt-A-Highway Coordinator  
1657 Riverside Drive, Redding CA 96001  
Toll Free 1-866-236-7824, or 530-225-3277

Please use the blank space in the diagram below to indicate the exact wording that will appear on your recognition panels. Show your logo location, if any. Please return this form with your application. **NOTE: If you choose to have a logo placed on your panel, you will need to send a layout of your logo with your application for approval. Upon approval of your design, you will have 30 days to submit 2 logos to the Coordinator for installation on the signs.**
